VOLT® Low Voltage Lighting Scroll or Leaf LED Decorative Bollard Lighting - VPL-10XX Series

Product Description

These decorative bollard lights are eye-catching luminaires beautiful both day and night. When lit, the tower projects a compelling pattern of light and shadow. Since the fixture includes two LED light sources (one at the base - the other under the top cap) the pattern is projected both upward and downward. VOLT® Bollards represent impressive and effective visual elements in the landscape lighting design. They add flair and wonder to the nighttime ambiance. The fixtures can be installed in the landscape through use of included Hammer® stakes; or onto decks or patios with screws and anchors (not included). The two integrated LED light sources are housed in solid cast brass modules. Now available in brass, with a lifetime warranty!

Product Dimensions

Features & Benefits

- ▶ Solid Brass construction with Bronze Finish
- ▶ Utilizes two recessed VOLT® Buddy Pro Puck Lights as integrated light sources, one puck faces up and one faces down which helps protect from glare and produces a sharp and clear pattern
- ▶ Design creates pattern on the ground for extra aesthetic appeal compared to traditional pathway lighting
- ▶ Can be mounted on a stake or it can sit on the ground as is
