

Product Name: VOLT® Coachman LED Path and Area Light

Product Code: VPL-1006-4-ABK

VOLT® Coachman™ LED Path and Area Light Unique Features & Benefits

The Only Coach Light to Recreate Candle Lighting Supplemented by Hidden General Area Illumination

- ▶ Ultra-realistic LED candle - powered through GU4 bi-pin connector (VOLT® exclusive).
- ▶ Hidden SCB LED lamp provides general area illumination - 16-foot diameter.
- ▶ Stands 62" tall to replace existing coach-style post lanterns.
- ▶ [Click here for the Coachman Video.](#)

VOLT® 12VAC Flameless LED Candle - with GU4 Bi-Pin Connector.

The Problem with Coach Lights

Nearly all modern coach lights feature moderate to high light outputs (in a horizontal direction) that contribute to direct glare and light trespass - especially a problem in densely populated residential neighborhoods.

The VOLT® Coachman Light has the beauty of an historical candlelit lantern with a minimal light output in a horizontal direction. Yet, it provides general area illumination in a 16-foot diameter around the luminaire - due to the LED lamp hidden under the lantern.
