

VOLT® Low Voltage Landscape Lighting Elevator Path & Area Light, 3024 series

Product Description

VOLT's Elevator Path & Area Light is great for more subtle path lighting or gentle flooding of individual objects. The round shape of this fixture helps to provide a smooth transition of light that leaves you with wide, even coverage. This fixture produces less light than that of a larger flood, but gives a wide spread subtle lighting effect. Great for accenting, the Elevator is the perfect fixture for almost any path lighting application.

Product Dimensions
