

VOLT® Low Voltage Lighting

12V High Powered Flood Lights - VFL-4006-ABZ

Product Description

12V Floodlights with high lumen outputs and ultra-wide beam angles! Perfect for expansive areas, large features, and uplighting tree canopies! These fixtures feature a super-durable powder-coated bronze finish in order to blend into the landscape. The tempered glass lens is fully sealed with a long-life gasket to provide a tight fit against moisture intrusion. With these new tightly placed LED chips you get a similar shadow effect to that of a single chip in that you will have a much more crisp and clear shadowing effect than if you had multiple chips spread out across the fixture face.

Product Description

Features & Benefits

- ▶ Powder coated, die cast aluminum design with stainless steel hardware create a durable design
- ▶ Multiple mounting options, and optional glare guards, allow light to be adjusted to desired position.
- ▶ Tempered glass lens is fully gasketed, to provide a tight fit against moisture.
- ▶ Low voltage design and warm color temperature means the flood lights can seamlessly be used with VOLT's low voltage landscape fixtures.
- ▶ Instant illumination

Specifications

- ▶ **Construction:** Die-cast aluminum housing with stainless steel screws
- ▶ **Finish:** Powder Coated Bronze
- ▶ **Lead Wire:** 18AWG premium grade UL Listed lead wire
- ▶ **Mounting:** Yoke Mount. Ships with 10" Hammer Stake (with cutout for wire exit) and threaded coupler. Mounting canopy available separately.
- ▶ **Light Source:** Integrated LED
- ▶ **Beam Angle:** 120°
- ▶ **Operating Voltage:** 12VAC
- ▶ **Color Temperature:** 3000K
- ▶ **Lifetime:** 40,000 hours
- ▶ **Powered by:** VOLT's low voltage transformers
- ▶ **Lumens:** 700
- ▶ **Watts:** 7W
