

# VOLT® Low Voltage Landscape Lighting

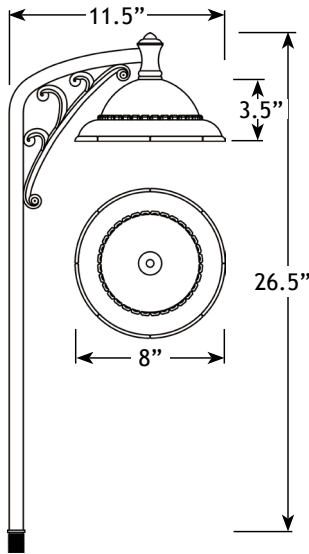

## Belladonna Path & Area Light - VPL-1024-4-BBZ

### Product Description

The VOLT® Belladonna Path & Area Light is a professional grade fixture with an elegant and ornate appearance. It complements most architectural and landscape styles. It provides wide, evenly dispersed illumination, ideal for walkways and landscaped areas. The offset shade configuration allows for the stem to be set back while the illumination projects forward from the stem. This is good for situations where you need to insert the stake into the ground several inches beyond the edge of a pathway or garden. The VOLT® Belladonna Path & Area Light is covered by a lifetime warranty.

### Product Dimensions
