

VOLT® Low Voltage Landscape Lighting

Salty Dog Brass LED Underwater Light- VUL-711-25-BBZ

Product Description

This redesigned underwater light has several improved features. It is made from cold forged brass which is less porous than cast brass and better suited for water-related conditions. It also has a pressure fit gasket that creates a tight seal keeping water out of the internal housing. Newly designed wire glands prevent water from getting into the fixture at one of the most common points of failure. Along with a newly designed mount for better underwater stability, this fixture can also be used on land with its efficient heat dissipation.

Product Dimensions

Features & Benefits

- ▶ Cold forged brass faceplate with pressure fit gasket (must be tightened in a star pattern) to guarantee complete waterproofing.
- ▶ Water tight wire glands ensure water cannot get inside the fixture.
- ▶ Extra heavy brass mount for stability.
- ▶ Efficient heat dissipation.
- ▶ This fixture can be used fully submersed in water or on land.
- ▶ Raised lens to prevent water from puddling.
- ▶ These underwater lights have 4 additional styles of faceplates to choose from, beacon, shielded, grated and turret (sold separately).

Specifications

- ▶ **Construction:** Brass
- ▶ **Finish:** Bronze
- ▶ **Lead Wire:** 18AWG
- ▶ **Lens:** Clear Flat Glass
- ▶ **Light Source:** Integrated LED
- ▶ **Operating Voltage:** 12V
- ▶ **Powered by:** VOLT's Low Voltage Transformer
- ▶ **Torque Setting:** 1.5 ft. lbs.
