

VOLT® Low Voltage Landscape Lighting

Salty Dog Brass MR16 Well Light

Product Description

The Salty Dog is a low voltage outdoor professional grade well light. Great for up lighting on trees, columns, walls and anything where a low profile outdoor well light fixture is desired. Featuring an adjustable lamp housing that can move up and down to give you a directional angle for precise aiming. Made from cold forged brass with reinforced PVC canister. This fixture comes lamp-ready so you are able to customize your lighting with an array of our MR16 lamps.

Product Dimensions
