

VOLT® Low Voltage Lighting Infiniti™ G3 Integrated LED Directional Lights VAL-20xx Series

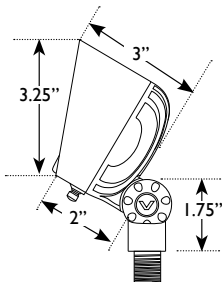

Product Description

VOLT® Infiniti™ G3 spotlights are professional grade integrated LED fixtures perfect for any uplighting application.

Constructed of heavy solid cast brass, the Infiniti™ G3 incorporates a built in driver and uses the body as a heat sink. The design allows the LED chips to run at a cooler temperature which equates to a longer life; up to 60,000 hours! Constructed with a silicone plug where the lead wires exit the luminaire and O-ring under the shroud, the Infiniti is completely water-tight. The luminaire is field serviceable and has an adjustable knuckle to aim light where it is needed.

Product Dimensions

VAL-2033 and VAL 2036 Series

Features & Benefits

- ▶ Solid Brass Construction.
- ▶ Pre-aged finish- a natural patina that does not corrode.
- ▶ Adjustable knuckle with lock screw allows precision positioning.
- ▶ Silicone plug at lead wire exit prevents ground moisture and insects from entering luminaire through the stem.
- ▶ The Infiniti™ G3 series of fixtures should **NOT** be used as a downlight nor aimed in a downward position.

Specifications

- ▶ **Construction:** Solid Cast Brass
- ▶ **Finish:** Bronze
- ▶ **Lead Wire:** 18AWG, SPT-2
- ▶ **Glass or Lens:** Tempered flat glass
- ▶ **Light Source:** Integrated CREE® LED
- ▶ **Operating Voltage:** 6-18 VAC, with decreased lumens under 11V
- ▶ **Color Temperature:** 2700K
- ▶ **Lifetime (L70):** 60,000 hours
- ▶ **Powered by:** VOLT's Low Voltage Transformer
