## VOLT® Low Voltage Landscape Lighting

## Colonial Brass Estate Size 12 Volt Area Light, 303 series

### Product Description

The Colonial Estate Size Area Light is a high-quality outdoor lighting fixture that produces a very wide beam. At 9 inches in diameter, this fixture has a large colonial style hat that really stands out. The intricate straight lines and architextural pattern lends itself to blending in with much more traditional style homes. The shape sheds water with ease, while also allowing as much light to escape from below as possible. The inside of the hat is coated with a white reflective enamel for increased lumen efficiency. The solid brass material makes this fixture both heavyweight and rugged. With this luminaire, you will never have to worry about corrosion or rust! This estate size version features a larger stem that is more proportionate and better fits this extra large hat at just over 36 inches tall. These fixtures are backed by a lifetime warranty.

### Features & Benefits

◗ Solid Brass

◗ Pre-aged finish - a natural patina that does not corrode.

◗ Stem is 1.4-inches thick and includes extra-long (1-inch) strip resistant threading for greater stability.

◗ Beryllium copper socket – more corrosion resistant than copper.

◗ Silicone plug at lead wire exit prevents ground moisture and insects from entering luminaire through the stem.

◗ Machine threaded body screws tight onto an O-ring for a moisture tight design.

### Specifications
